Research Data Analyst With 6 Years of Experience Supporting Academic and Clinical Studies With Statistical Rigor
Data analyst focused on research integrity, statistical modeling, and supporting publications. Experienced in managing structured and unstructured data, running hypothesis testing, and contributing to IRB submissions and grant reporting.

PROFESSIONAL EXPERIENCE

RESEARCH DATA ANALYST   *University of Washington Medical Center, Seattle, WA | March 2020 - Present*

- Conduct statistical analysis on longitudinal clinical study data using R and SPSS for multiple NIH-funded studies
- Manage participant data collection tools in REDCap and ensure quality before integration into data warehouse
- Create charts and models for peer-reviewed articles, resulting in six co-authorship credits

RESEARCH ASSISTANT   *Washington Research Collaborative, Seattle, WA | August 2018 - February 2020*

- Built survey instruments and cleaned datasets from over 1,000 respondents in Qualtrics and Excel
- Produced bi-weekly reports on behavioral study metrics and collaborated on IRB submissions
- Automated repetitive data wrangling tasks using Python scripts, improving processing time by 40%

EDUCATION

BACHELOR OF SCIENCE (B.S.) IN STATISTICS   University of Washington, Seattle, WA | June 2018

KEY SKILLS

- Data modeling
- Hypothesis testing
- Python
- Qualtrics
- R programming
- REDCap
- SPSS
