Education data scientist enhancing learning outcomes with analytics

Experienced education data scientist with five years of experience in learning analytics, predictive modeling for student success, and e-learning optimization.

## PROFESSIONAL EXPERIENCE

- EDUCATION DATA SCIENTIST** *EdTech Analytics | New York, NY | June 2020 – Present*
  - Developed machine learning models that predicted student drop-out risks with 85% accuracy
  - Designed adaptive learning algorithms that personalized coursework for 500K+ students
  - Conducted A/B tests to optimize e-learning platform engagement rates
- DATA ANALYST (EDUCATION RESEARCH)** *Learning Insights | Boston, MA | July 2017 – May 2020*
  - Analyzed student performance data to improve curriculum effectiveness
  - Built dashboards for school administrators to track key education metrics
  - Created predictive models that identified at-risk students early, improving retention by 15%

## EDUCATION

- MASTER OF SCIENCE IN LEARNING ANALYTICS** *Stanford University, Stanford, CA | May 2017*

## KEY SKILLS

- ● ● ● ● Adaptive learning models
- ● ● ● ○ Student retention and engagement analytics
- ● ● ○ ○ E-learning personalization algorithms
- ● ○ ○ ○ Predictive analytics for student success
- ○ ○ ○ ○ A/B testing for education technology
