Cybersecurity Analyst Focused on Threat Detection, Risk Mitigation, and Data Protection
A dynamic cybersecurity analyst with over five years of experience defending enterprise networks and systems. Skilled in threat analysis, vulnerability management, and incident response. Proven track record of reducing risk exposure, enforcing compliance standards, and implementing proactive security protocols across complex environments.

Professional Experience

August 2022 - Present

Cybersecurity Analyst *SecureBridge Technologies, Atlanta, GA*

- Detected and contained 50+ attempted intrusions using real-time security information and event management (SIEM) alerts, reducing average response time by 35%
- Deployed vulnerability scanning tools across all endpoints, lowering critical vulnerabilities by 62% within six months
- Led internal audit preparation for SOC 2 compliance, resulting in zero major findings during third-party review

July 2019 - July 2022

Information Security Analyst *TriPoint Data Systems, Marietta, GA*

- Investigated and responded to phishing and malware incidents, preventing potential exposure of data for 10,000+ users
- Conducted monthly penetration tests and remediated high-risk issues, reducing attack surface across all departments
Implemented role-based access controls, enhancing data protection and aligning systems with HIPAA security requirements

Key Skills

- Compliance standards (NIST, HIPAA, ISO 27001)
- Endpoint protection
- Firewalls and intrusion detection systems
- Incident response
- Network monitoring
- Risk assessment
- SIEM tools (Splunk, QRadar)
- Threat analysis
- Vulnerability scanning

Education

September 2019

Bachelor of Science (B.S.) Cybersecurity

Kennesaw State University*, Kennesaw, GA*

Certifications

March 2019	**CompTIA Security+**
March 2019	**Certified Ethical Hacker (CEH)**
September 2019	**GIAC Security Essentials (GSEC)**
