## Software Developer With a Focus on Building Scalable, User-Friendly Applications

Experienced developer with over six years of success delivering high-performance software in Agile environments. Skilled in full-stack development, application programming interface (API) design, and cloud integration. Proven ability to translate business goals into practical code solutions and improve development cycles through automation and testing.

## Professional Experience

July 2020 -  
Present

### Full Stack Developer

*Everbyte Technologies, Austin, TX*

- Designed a scalable API framework that reduced page load times by 45% and supported a 200% growth in user traffic
- Launched a billing automation feature that cut invoicing errors by 70% and saved \$30,000 annually in client support costs
- Built continuous integration (CI)/continuous delivery (CD) pipelines that shortened deployment cycles by 60%, enabling bi-weekly releases for over 15 enterprise clients

May 2017 -  
June 2020

### Software Developer

*ClearStack Solutions, Dallas, TX*

- Developed reusable React components that improved front-end build efficiency by 40% and saved 80 hours of dev time monthly
- Optimized SQL queries and indexing, cutting report generation times from 20 seconds to under five seconds for over 100,000 records
- Led API integration with third-party services, increasing product value and contributing to a \$500,000 annual revenue boost

## Key Skills

- Agile development
- API development
- Cloud computing (AWS, Azure)
- Continuous integration
- Database management
- Front-end development
- JavaScript

## Education

March 2017

### Bachelor of Science (B.S.) Computer Science

University of Texas at Austin at Austin, TX

## Certifications

June 2019

### AWS Certified Developer – Associate
