Professional Experience

Computer Science Lecturer

University of Texas at Austin, Austin, TX

August 2017 - Present

- Deliver engaging lectures on programming, data structures, and algorithms to undergraduate students
- Developed hands-on coding assignments, improving student performance by 20%
- Provide one-on-one mentorship to students pursuing research projects and internships

Teaching Assistant – Computer Science Department

University of Texas at Austin, Austin, TX

September 2015 - May 2017

- Assisted in grading assignments and conducting lab sessions for introductory programming courses
- Held weekly office hours, supporting over 100 students per semester in coding and debugging techniques
- Designed new assessment methods, improving student retention rates by 15%

Passionate computer science lecturer with expertise in software development and data structures

Enthusiastic lecturer with seven years of experience teaching programming, algorithms, and data structures. Skilled at breaking down complex topics and engaging students with hands-on projects.

Key Skills

- Programming languages (Python, Java, C++)
- Interactive teaching methods
- Course development and curriculum planning
- Student mentorship
- Research and technical writing

Education

Master of Science in Computer Science

University of Texas at Austin, May 2017

Bachelor of Science in Computer Science

Texas A&M University, May 2015
