

Sarah Lee

Software Engineer

Seattle, WA
sarahlee@example.com
(555) 456-7890

Computer science engineer with a focus on software architecture and system optimization

Experienced software engineer with expertise in designing and optimizing large-scale applications. Proficient in C++, Python, and cloud-based infrastructure.

PROFESSIONAL EXPERIENCE

June 2020 - Present

Software Engineer

TechPioneers Inc., Seattle, WA

- Designed and implemented microservices, improving system scalability by 50%
- Optimized database queries, reducing application response time by 30%
- Automated deployment pipelines, reducing software release cycles by 40%

July 2018 - May 2020

Junior Software Developer

InnovateTech, Seattle, WA

- Developed backend services for web applications, reducing server downtime by 20%
- Conducted performance testing, identifying and fixing bottlenecks
- Collaborated with cross-functional teams to improve product quality

EDUCATION

Bachelor of Science in Computer Science

University of Washington, May 2018

KEY SKILLS

- Software architecture design
- Microservices and distributed systems
- Cloud platforms (AWS, Azure)
- DevOps and CI/CD pipelines
- Database optimization
