## Civil Engineering Student with Hands-On Infrastructure Project Experience

Aspiring civil engineer with a strong background in structural analysis, CAD software, and geotechnical studies. Experience in assisting design teams and supporting construction projects.

## Professional Experience

### Civil Engineering Intern

XYZ Construction | City, ST

May 2024 - Present

- Assisted engineers in site planning, reducing structural errors by 12%
- Conducted soil analysis and prepared reports for geotechnical projects
- Used AutoCAD to modify project designs based on client feedback

### Research Assistant

University Engineering Department | City, ST

September 2023 - May 2024

- Conducted structural integrity assessments for small-scale projects
- Developed a cost analysis model that reduced material waste by 8%
- Helped prepare technical reports for faculty and industry sponsors

## Education

### Candidate: Bachelor of Science in Civil Engineering

University of California, Berkeley | Expected May 2025

## Key Skills

AutoCAD and Revit

Structural analysis

Soil mechanics and geotechnical engineering

Project management

Construction site supervision
