## Entry-level chemist with experience in laboratory research and chemical analysis

Recent chemistry graduate with hands-on experience conducting experiments, analyzing chemical compounds, and assisting in research studies. Passionate about applying scientific principles to solve real-world problems.

## Professional Experience

### Chemistry Research Intern

Biochem Labs, City, ST | June 2023  
- December 2023

- Conducted chemical analyses, improving lab efficiency by 20%
- Assisted in formulation testing and quality control procedures

### Lab Assistant

University Chemistry Department,  
City, ST | August 2022 - May 2023

- Maintained lab equipment and ensured compliance with safety standards
- Recorded and analyzed data for ongoing research projects

## Key Skills

- Analytical chemistry techniques
- Laboratory safety and compliance
- Spectroscopy (FTIR, UV-Vis)
- Data collection and reporting
- Chemical process analysis

## Education

### Bachelor of Science in Chemistry (May 2024)

State University, City, ST
