Entry-level chemical engineer with research and process optimization experience

Motivated chemical engineering graduate with hands-on laboratory experience and knowledge of chemical process design.

Professional Experience

Chemical Engineering Intern

TechChem Industries,
City, ST
| June 2023 -
December 2023

- Conducted research on chemical processes, leading to efficiency improvements
- Assisted in lab testing and data collection for new product formulations

Research Assistant

University of City, City,
ST
| August 2022 - May
2023

- Conducted chemical experiments and recorded results for research studies
- Collaborated with faculty on process safety analysis

Key Skills

<div><div></div></div>	Chemical process simulation
<div><div></div></div>	Laboratory research and data analysis
<div><div></div></div>	Quality control and safety compliance
<div><div></div></div>	Process optimization
<div><div></div></div>	Equipment calibration

Education

Bachelor of Science in Chemical Engineering (May 2024)

University of City, City,
ST
