

Sam Wright

MEAN Stack Developer

MEAN stack developer with four years of experience developing modular applications using MongoDB, Express, Angular, and Node.js. Experienced in rapid prototyping, API integration, and cross-team collaboration in agile settings.

Professional Experience

MEAN Stack Developer

CodeVista Solutions, Phoenix, AZ

March 2021 - Present

- Designed a multi-page form workflow in Angular and Node.js that processed over 5,000 submissions monthly
- Built MongoDB-backed services for user authentication and form data persistence
- Implemented real-time validation and dynamic field rendering, reducing submission errors by 33%

Web Developer

LaunchForge Agency, Tempe, AZ

August 2019 - February 2021

- Developed client projects using the full MEAN stack, including e-commerce and scheduling systems
- Integrated payment and booking APIs to automate key workflows

Education

Bachelor of Science (B.S.) in Software Engineering

Arizona State University | May 2019

Certifications

- MongoDB for Developers | MongoDB University | 2022
- Angular Fundamentals | Pluralsight | 2020

Phoenix, AZ 85004
(123) 456-7890
