## API Full Stack Developer

Denver, CO 80205  
email@example.com  
(123) 456-7890  
linkedin.com/in/your  
name

API-focused full stack developer with over six years of experience designing secure, high-throughput REST and GraphQL APIs. Skilled in back-end systems using Node.js and Python, with front-end experience in React and API-driven interfaces. Strong background in API design, documentation, and integration testing.

### Key Skills

API versioning and documentation (Swagger, OpenAPI)

Authentication and authorization (JWT, OAuth)

Caching strategies (Redis, Memcached)

Express and Node.js development

GraphQL schema design

JSON and data modeling

Load testing and performance tuning

Python and Flask APIs

RESTful API architecture

### Professional Experience

April 2020 - Present

#### API Full Stack Developer

*SyncLayer Technologies, Denver, CO*

- Designed and deployed REST APIs supporting over 40,000 daily active users with Node.js and Express
- Reduced API latency by 50% by restructuring database queries and implementing Redis caching
- Built interactive front-end features in React using data from internal GraphQL APIs
- Integrated OpenAPI documentation, increasing internal developer efficiency and reducing onboarding time

June 2017 - March 2020

#### Back-End Developer

*LoopLogic Systems, Boulder, CO*

- Maintained and expanded Python-based APIs used in financial and logistics tools
- Implemented authentication and rate limiting strategies to improve security and scalability
- Collaborated with front-end developers to ensure consistent API contracts and data formats

### Education

#### Bachelor of Science (B.S.) in Software Engineering

University of Colorado  
Boulder | May 2017

### Certifications

- API Design and Fundamentals | Postman Academy | 2022
- GraphQL Advanced Concepts | Apollo GraphQL | 2021
