(123) 456-7890
linkedin.com/in/yourname

Cloud-first full stack developer with seven years of experience building web applications hosted on AWS and Azure. Skilled in React, Python, serverless computing, and infrastructure automation. Passionate about building resilient systems that scale efficiently across cloud platforms.

Professional Experience

Cloud Developer

NexaCloud Solutions, Austin, TX | February 2020 to present

- Developed serverless REST APIs using AWS Lambda, API Gateway, and DynamoDB
- Designed a multi-region failover architecture that improved application availability from 98.5% to 99.99%
- Deployed React-based front-end using S3 and CloudFront, reducing page load time by 48%
- Built CI/CD pipelines in Azure DevOps for hybrid cloud deployments

Full Stack Developer

GridStack Technologies, Houston, TX | September 2016 - January 2020

- Created dashboards and real-time tools using Python (Flask) and WebSockets
- Implemented SSO integration with Azure Active Directory for enterprise clients
- Supported migration of 10+ applications to AWS infrastructure with zero downtime

Key Skills

<div></div>	API Gateway and serverless deployment
<div></div>	Azure DevOps and GitHub Actions
<div></div>	Cloud storage and hosting (S3, CloudFront)
<div></div>	Cross-cloud strategy (AWS, Azure)
<div></div>	Flask and Python backend development
<div></div>	Infrastructure scaling and monitoring
<div></div>	React and responsive UI design

Education

May 2016 Bachelor of Science (B.S.) in Computer Science | Texas A&M University

Certifications

- AWS Certified Developer – Associate | Amazon Web Services | 2022
- Microsoft Certified: Azure Fundamentals | Microsoft | 2021
