linkedin.com/in/yourname

Full stack developer with six years of experience designing and deploying cloud-first applications using Azure, .NET Core, and React. Skilled in building microservices, automating deployments, and integrating secure identity solutions in distributed environments.

Professional Experience

Azure Full Stack Developer

BlueSky Digital, Seattle, WA

April 2020 - Present

- Built and deployed a serverless microservices platform using Azure Functions and Cosmos DB, processing over 5 million events monthly
- Implemented Azure AD B2C for customer authentication, reducing identity-related support tickets by 50%
- Designed real-time dashboards in React, improving operations visibility for client stakeholders

Application Developer

XTech Global, Portland, OR

July 2017 - March 2020

- Migrated five legacy applications to Azure App Service with zero downtime
- Integrated Azure Blob Storage for document archiving, reducing storage costs by 20%

Key Skills

- **Azure Functions and App Services**
- **Azure DevOps and ARM templates**
- **Cosmos DB and SQL databases**
- **Infrastructure as Code**
- **Microservices architecture**
- **React and TypeScript**
- **REST API development**

Education

Bachelor of Science (B.S.) in Computer Engineering

University of Washington | May 2017

Certifications

- Microsoft Certified: Azure Solutions Architect Expert | Microsoft | 2023
- Microsoft Certified: Azure Fundamentals | Microsoft | 2021
- Certified Kubernetes Application Developer (CKAD) | CNCF | 2022
